

UK AD & Biogas 2016

Entering the highly coveted AD & Biogas Industry Awards for the first time, **Landia** was awarded highly commended in two categories for separate plant installations of its GasMix digester mixing system – both here in the UK and in Australia. In addition, the team secured three orders on the first morning of the show. Technical Sales Engineer, Howard Burton, observed: “The quality of visitors has been excellent. We’ve definitely noticed more international visitors than ever before, with enquiries from China, Germany and Kenya. People have come a long way to be here as they know they’re going to meet the right people for their AD project.”
